

If the World Were a Village of 100 People (youth/adults)

If the World Were a Village of 100 People

If we could reduce the world's population to a village of precisely 100 people, with all existing human ratios remaining the same, the demographics would look something like this:

The village would have 61 Asians, 13 Africans, 12 Europeans, 9 Latin Americans, and 5 from the USA and Canada

50 would be male, 50 would be female

75 would be non-white; 25 white

67 would be non-Christian; 33 would be Christian

80 would live in substandard housing

16 would be unable to read or write

50 would be malnourished and 1 dying of starvation

33 would be without access to a safe water supply

39 would lack access to improved sanitation

24 would not have any electricity (And of the 76 that do have electricity, most would only use it for light at night.)

8 people would have access to the Internet

1 would have a college education

1 would have HIV

2 would be near birth; 1 near death

5 would control 32% of the entire world's wealth; all 5 would be US citizens

48 would live on less than US\$ 2 a day

20 would live on less than US\$ 1 a day
